- TN-IMPACT Participation
- AWS Academy Graduate – Cloud Architecting | 60-hour training, ICT Academy

SOFT SKILLS

Problem Solving, Communication, Teamwork, Leadership, Adaptability, Critical Thinking, Time Management

CAREER OBJECTIVE

B.Tech Information Technology student passionate about Full Stack Development, Web Development, and AI-driven applications. Skilled in building responsive front-end interfaces and functional back-end logic, with hands-on internship exposure to real-world software workflows. Quick learner and problem-solver, committed to writing clean, efficient code and building impactful, user-focused solutions.

INTERNSHIP EXPERIENCE

Backend Development Intern — *Ladybird Web Solution Pvt. Ltd.* *Jun – Jul 2025*

- Contributed to backend development for the Faveo Helpdesk product, gaining exposure to real-world software workflows.
- Collaborated with mentors on industry-standard practices and worked with databases to support core backend functionality.
- Strengthened debugging skills by resolving issues in existing codebases; gained end-to-end SDLC understanding.

PROJECTS

YouTube Clone

- Built a responsive YouTube-style homepage with a clean interface, intuitive navigation, and dynamic video card layouts, applying responsive design principles across screen sizes.

Warehouse Management AI Assistant

- Developed an AI-based assistant for warehouse automation, inventory assistance, and quick query handling to reduce manual effort and improve productivity.

AI Student Learning Platform

- Designed an AI-assisted platform delivering personalized learning with an interactive dashboard for progress tracking and engagement-driven modules.

ACHIEVEMENTS

- AI for Bharat Hackathon (Hack2Skill & AWS): Contributed to AI-based problem-solving and solution development.
- TN -IMPACT 2026 Industrial Hackathon (TANCAM, KIT & Dassault Systèmes): Gained exposure to real-world innovation.
- Google Student Campus Ambassador Program: Participated in Game Night Edition, demonstrating creativity and collaboration.
- Advanced Diploma in Python Programming (ADPP): Completed with Grade A — C, C++, Python fundamentals.
- AWS Academy Graduate – Cloud Architecting Completed 60-hour training through ICT Academy, gaining knowledge of AWS cloud services and architecture.
